Fraction Lesson 1

Understanding Fractions

What is a fraction?

A fraction is a number that shows **parts of a whole**. It has a top number called a **numerator**, and it has a bottom number called a **denominator**.

Una fracción es un número que muestra una parte de un todo. Tiene un número de arriba (llamado el numerador) y un número de abajo (llamado el denominador).

1) Visual Example

1 — numerator2 — denominator
